## WEBSITE UPDATE

The Department has modernised its website with a new searchable online format for tariff-related information for importers.

The fresh, new look applies to:

**The Working Tariff:** This is an online version of the Combined Australian Customs Tariff Nomenclature and Statistical Classification. It incorporates the Harmonized Commodity Description and Coding System, which define internationally-accepted tariff classifications for traded goods. It also records Australian rates of customs duties for imported goods, and related statistical codes from the Australian Bureau of Statistics.

<http://www.border.gov.au/Busi/cargo-support-trade-and-goods/importing-goods/tariff-classification-of-goods/current-tariff-classification-online-version>

**Tariff Concession Orders (TCOs):** More than 15,000 TCOs are now easily searchable, and more accessible for importers and manufacturers. <http://www.border.gov.au/Busi/domestic-manufacturers-and-importers/list-of-tariff-concession-orders>

The website changes include, for the first time, a page dedicated to the interests of domestic manufacturers and importers, who are key stakeholders of the Tariff Concession System.
