**COMMERCIAL TARIFF CONCESSION ORDERS (CTCOs) & TARIFF CONCESSION ORDERS (TCOs) NOT USED IN THE PREVIOUS 2 YEARS**

The Comptroller-General of Customs is satisfied that the CTCOs and TCOs listed in the table below are no longer required because, in the 2 years preceding the day of this notice, they have not been quoted in an import declaration to secure a concessional rate of duty.

From Thursday, 21 September 2017, it is intended to take action to revoke these Orders under subsection 269SD (1A) of the Customs Act 1901. In accordance with subsection 269SG (2) of the Customs Act 1901, in transit provisions shall apply. If revoked, the expected date of effect will be 20 September 2017.

Interested parties are invited to provide, by close of business, Wednesday 20 September 2017, written reasons why an Order should NOT be revoked.

Please advise if any of the Orders listed below have been quoted on an import declaration.

If a request is made to retain an Order used for the granting of a Determination, please specify the Determination and the linked Item number to enable mapping to the Order and its scope.

Recent changes to the DIBP website allow improved search capability for Tariff Concession Orders. This can be found via the Domestic Manufacturers page on the Website at:  
<http://www.border.gov.au/Busi/domestic-manufacturers-and-importers/list-of-tariff-concession-orders>

A search engine specifically able to search via words has been installed to the website. The additional capability allows users to search for existing TCOs by either their tariff classification or **specific word/s**. The improved capability to search by word will assist users not fully acquainted with tariff classifications provided by the Harmonised System. Examples attached.

The screenshot shows the website's navigation menu with 'Australian Border Force' selected. The main content area displays 'Current Tariff Concession Orders' with sections III and IV. A 'Search the Tariff' box is overlaid on the page, containing the text 'weed mats' in the search field and a 'Search' button. A red circle highlights this search box, and a red arrow points to it with the text '1. insert Search'.

As an example, you may choose to search for TCOs that contain the words "weed mats" by inserting these words in the *Tariff Concession Orders* part of the search function. This will indicate any TCOs that contain both of these words, as well as their classification. Depending on the search findings, users may choose to narrow or widen their search for TCOs of interest.

The screenshot shows the search results page. The search input field contains 'Weed mats'. The search results are displayed as follows:

TCO Number	Description
0307203	WEED CONTROL MATS, WOVEN, UV STABILISED, POLYPROPYLENE
0210725	FABRIC, WEED MAT, woven, having BOTH the following: (a) ultra violet stabilised ...

At the bottom of the results, it indicates '2 results'.

Alternatively, more experienced users of TCO will continue to be able to search via tariff classification.

The attached screen shots will help. Alternatively, please contact [tarcon@border.gov.au](mailto:tarcon@border.gov.au) for additional help.
